Sehr geehrter Kunde

Die EU-Verordnung für Medizinprodukte (Medical Device Regulation) bringt viele neue Anforderungen mit sich. Eine wichtige neue Anforderung sind die Angaben auf dem Etikett der Verpackung.

Aus diesem Grund haben wir unser Etikett auf den neusten Stand gebracht und möchten es auf diesem Weg kurz vorstellen.

Dear Customer

The EU Regulation on Medical Devices (Medical Device Regulation) leads to many new requirements.

An important new requirement is the information on the packaging label.

For this reason, we have updated our label and would like to introduce it to you briefly.

Technische Hinweise für Hartmetalleinsätze Technical indications for tungsten carbide inserts Indications techniques pour mors en carbure de tungstène Indicación técnica para bocas de carburo de tungsteno

i

Hartmetalleinsätze

Um den besonderen anwendungsbedingten Bedürfnissen zu entsprechen, sind Hartmetall-Einlagen in 3 Profilgrößen und in glatter Ausführung erhältlich:

- Standard (0,5 mm)
- Fein (0,4 mm)
- Micro (0,3 mm)

Somit können Chirurgen für alle Operationsbereiche mit unterschiedlichsten Nadelstärken, Instrumente von optimaler Griffigkeit angeboten werden. Das pyramidenförmig eingeschliffene Zahnprofil sorgt auch in extremen Situationen für sicheren Halt. Um Ihnen einen Überblick über die Verwendung der einzelnen HM-Plättchen zu geben, haben wir jeweils bei der Nebenzeichnung die Zahn-teilung in mm angegeben.

Tungsten Carbide Inserts

In order to conform to the special different requirements, the tungsten carbide inserts are available in 3 profile sizes and smooth finish:

- standard (0.5 mm)
- fine (0.4 mm),
- micro (0.3 mm).

So its possible to offer the surgeon instruments with an optimal touch with a different needle thickness for all operation fields. The pyramidal ground tooth profile offers a sure handhold even in extreme situations. In order to give you a general view about the use of the single tungsten carbide inserts, we indicated the tooth pitch at each sketch in mm.

Mors en carbure de tungstène

Pour répondre aux besoins particuliers de certaines applications, les inserts avec mors en carbure de tungstène sont commercialisés en 3 grosseurs de profil, ainsi qu'en finition lisse :

- standard (0,5 mm)
- fin (0,4 mm),
- micro (0,3 mm)

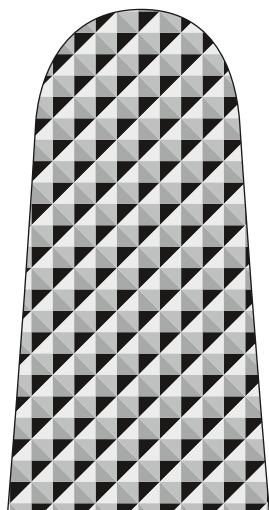

Ceci permet aux chirurgiens de disposer des instruments d'une adhérence optimale dans tous les domaines d'opération et pour les différentes solidités d'aiguille. Le profil de dent aiguisé pyramidalement garantit une tenue en main sécurisée même dans des situations extrêmes. Pour vous donner une vue d'ensemble sur l'emploi des différents inserts en carbure de tungstène, nous avons indiqué pour chaque ébauche le pas d'engrenage en mm.

Bocas de carburo de tungsteno

Para los especiales uso de empleo y poder corresponder a los grandes necesidades, son los bocas de carburo de tungsteno en 3 tamaños y de contrucción lisa.

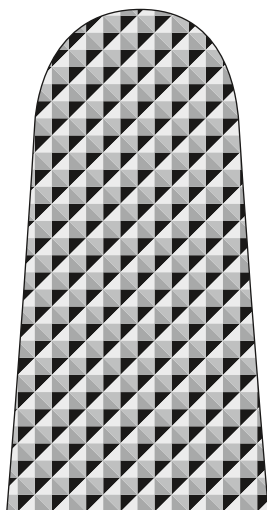

- standard (0,5 mm)
- fino (0,4 mm),
- micro (0,3 mm)

Así los cirurgicos pueden alcanzar todos clases de operaciones con diversos gruesos de agujas, ofrecemos instrumentos de optimal agarre. La forma piramidal del perfildental afilado sirve también para el apoyo seguro en extremos situaciones. Para darles a ustedes una vista sobre el uso de empleo de los diferentes bocas de carburo de tungsteno al respecto, hemos detallado en el dibujo del lado abajo adjunto en mm.

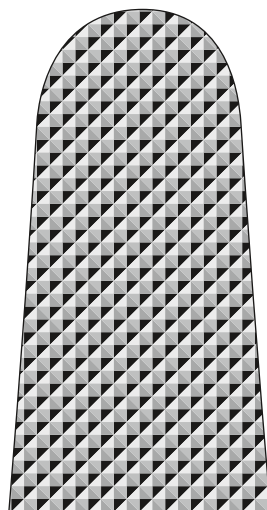

0,5 mm / TC5

Standard
2500 teeth per sq. in.

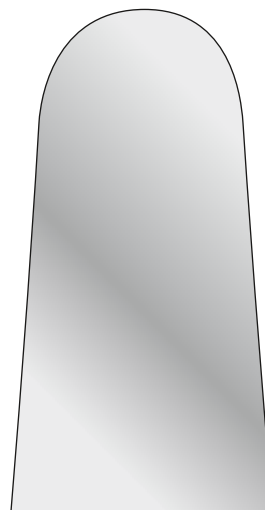

0,4 mm / TC4

Fein · fine · fin · fino
3600 teeth per sq. in.

0,3 mm / TC3

Micro
7200 teeth per sq. in.

glatt · smooth · lisse · lisa

Technische Hinweise für Hartmetalleinsätze Technical indications for tungsten carbide inserts Indications techniques pour mors en carbure de tungstène Indicación técnica para bocas de carburo de tungsteno

SCHWERT
SWORD · ESPADA
EPEE · SPADA

i

Die Griffigkeit

Durch Hartmetall-Einlagen behält das Instrument seine wichtigste funktionelle Eigenschaft.

Die ungewöhnliche Härte des Einlagenmaterials ergibt sich aus seiner besonderen Zusammensetzung:

- 87,5-88% Wolframkarbid
- 12% Nickel
- 0-0,5% Chromkarbid

Die mit diesem Werkstoff erreichte Abriebs- und Verformungsfestigkeit des Zahnprofils, sorgt so für die lange Gebrauchsfähigkeit des Instruments.

Wir empfehlen Hartmetall-Maulteile

- mit glatter Fläche für Nahtmaterial 9/0-11/0
- mit Teilung **0,3 mm / TC3** für Nahtmaterial 6/0-10/0
- mit Teilung **0,4 mm / TC4** für Nahtmaterial 4/0-6/0
- mit Teilung **0,5 mm / TC5** für Nahtmaterial bis 3/0

The Touch

As a result of TC inserts, the instrument keeps its most important functional characteristic.

The unusual hardness of the insert material is reason of its special composition:

- 87,5-88% Wolfram Carbide
- 12% Nickel
- 0-0,5% Chrome Carbide

The rubbing- and deformation solidity of the tooth profile, obtained by this material, takes care for the long use of instrument.

We recommend carbide inserts

- with smooth jaw surface for suture material 9/0-11/0
- with **0.3 mm / TC3** pitch of serration for suture material 6/0-10/0
- with **0.4 mm / TC4** pitch of serration for suture material 4/0-6/0
- with **0.5 mm / TC5** pitch of serration for suture material up to 3/0

L'adhérence

Grâce aux inserts en carbure de tungstène, l'instrument garde son caractère le plus fonctionnelle.

La dureté extraordinaire du matériel résulte de sa composition particulière :

- 87.5-88% Tungstène-carbure
- 12% Nickel
- 0-0.5% Carbure de chrome

La résistance contre l'usure et la déformation, atteinte par ce matériel, assure une très grande longévité de l'instrument.

Nous recommandons des mors en carbure de tungstène

- avec mâchoires lisses pour matériels de suture 9/0-11/0
- avec pas d'engrenage **0,3 mm / TC3** pour matériels de suture 6/0-10/0
- avec pas d'engrenage **0,4 mm / TC4** pour matériels de suture 4/0-6/0
- avec pas d'engrenage **0,5 mm / TC5** pour matériels de suture jusqu'à 3/0

El buen agarre

Por bocas de carburo de tungsteno conserva el instrumento su función de importante calidad.

La extraordinaria dureza del material de este instrumento se lo da por su bien ajuste:

- 87,5-88% Carburo de wolframio
- 12% Níquel
- 0-0,5% Carburo de cromo

Con esta clase de material alcanza una dureza contra restrega y peridura del perfildental, asimismo cuida para la largamantenición del instrumento.

Recomendamos las bocas de metal duro

- con superficie lisa para material de sutura con paso 9/0-11/0
- con paso **0,3 mm / TC3** paramaterial de sutura 6/0-10/0
- con paso **0,4 mm / TC4** para material de sutura 4/0-6/0
- con paso **0,5 mm / TC5** para material de sutura hasta 3/0

SAFE-EX

Das alltägliche Verletzungsrisiko beim Aufnehmen und vor allem dem Entfernen der Klinge vom Skalpell Griff ist mit herkömmlichen Instrumenten unvermeidlich. Mit dem neuen SCHWERT SAFE-EX hat man eine Innovation geschaffen die den Praxisalltag verändert. Die im Griff integrierte Funktion, ähnlich der Benutzung eines Kugelschreibers, reduziert die Verletzungsgefahr auf ein Minimum. Die Klinge wird beim SAFE-EX per Knopfdruck am distalen Ende einfach ausgeworfen. Praxispersonal wird im Zuge der Wiederaufbereitung wirksam vor Krankheitsübertragungen und Infektionen durch Schnitte geschützt.

SAFE-EX

The daily risk of injuries by mounting and especially dismounting of blades is not avoidable by standard blade holders. With the new SCHWERT SAFE-EX an innovation was developed that changes the daily routine eminently. The integrated function that works like a regular ball pen reduces the risk of an injury to a minimum. The blade is ejected from the SAFE-EX just by pushing the button on the distal end. The practice staff, especially during the re-processing, is safe from infections caused by unintended cuts.

Ferris-Smith-Kerrison Stanzen

Die Ferris-Smith-Kerrison Stanzen wurden entwickelt, um den Operationsprozess an der Bandscheibe erfolgreich zu unterstützen. Die Stanzen sind mit einem Schaft in zwei verschiedenen Längen, sechs unterschiedlichen Bissbreiten, nach oben oder nach unten schneidend und in Edelstahl erhältlich. Der ergonomische Griff mit Rückholfeder ermöglicht ein präzises und optimiertes Arbeiten.

Ferris-Smith-Kerrison Punches

The Ferris-Smith-Kerrison Punches were developed in order to support surgical treatments on the intervertebral disc successfully. The punches are available with a shaft in two different lengths, in six different amplitudes, cutting upwards or cutting downwards and in stainless steel. The ergonomic handle with retaining spring allows a precise and optimal work.

SAFE-EX 2
patented

13051

Sicherheitsklingenhalter mit Abwurf Funktion,
ergonomische Form, zerlegbar
Safety blade holder with eject function,
ergonomic shape, dismountable

Das alltägliche Verletzungsrisiko
beim Aufnehmen und vor allem dem
Entfernen der Klinge vom Skalpell
Griff ist mit herkömmlichen Inst-
rumenten unvermeidlich. Mit dem
neuen SCHWERT SAFE-EX hat man
eine Innovation geschaffen die den
Praxisalltag verändert.

Die im Griff integrierte Funktion,
ähnlich der Benutzung eines Kugel-
schreibers, reduziert die Verletzungs-
gefahr auf ein Minimum. Die Klinge
wird beim SAFE-EX per Knopfdruck
am distalen Ende einfach ausgewor-
fen. Praxispersonal wird im Zuge der
Wiederaufbereitung wirksam vor
Krankheitsübertragungen und Infek-
tionen durch Schnitte geschützt.

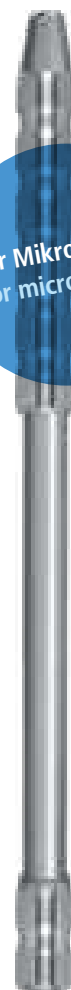

The daily risk of injuries by mount-
ing and especially dismounting of
blades is not avoidable by stan-
dard blade holders. With the new
SCHWERT SAFE-EX an innovation
was developed that changes the
daily routine eminently.

The integrated function that works
like a regular ball pen reduces the
risk of an injury to a minimum. The
blade is ejected from the SAFE-EX
just by pushing the button on the
distal end. The practice staff, espe-
cially during the re-processing,
is safe from infections caused by
unintended cuts.

Der Lateral Vaginal-Retraktor erweitert Ihr Blickfeld und den Arbeitsbereich.

The Lateral Vaginal Retractor improves access and viewing of the cervix during a procedure.

Le spéculum latéral élargit votre angle visuel et votre sphère du travail.

El espéculo lateral amplía su campo visual y su zona de trabajo.

Wichtige Hinweise Important notice Indications importantes Avisos importantes

Wichtige Hinweise

- SCHWERT ist ein international eingetragenes Warenzeichen der Firma A. Schweickhardt GmbH & Co. KG. SCHWERT-Instrumente entsprechen der DIN EN ISO 13485.
- Dieser Katalog wendet sich nur an ausgebildetes Fachpersonal. Er bleibt unser Eigentum. Sein Gebrauch bleibt auf Ein- und Verkauf von SCHWERT-Instrumenten beschränkt. Weiterverwendung, Nachdruck und Vervielfältigung, auch auszugsweise und insbesondere einzelner abgebildeter Instrumente sind nicht gestattet ohne vorherige ausdrückliche schriftliche Genehmigung der Firma A. Schweickhardt GmbH & Co. KG. Katalogkonzeption und -gestaltung sowie Illustrationen und Designelemente unterliegen dem urheberrechtlichen Schutz. Verletzungen werden verfolgt und können sowohl zivil- als auch strafrechtliche Konsequenzen haben. Technische Änderungen ohne Ankündigung vorbehalten.
- Als sichere Sterilisierungsmethode empfehlen wir ausschließlich Dampfsterilisation, jede andere Methode wendet der Arzt auf eigene Verantwortung an. Bei Heißluftsterilisation darauf achten, dass 180°C nicht überschritten werden, da sonst mit nicht mehr entfernbaren Verfärbungen und Härteabfall der Instrumente gerechnet werden muss.
- Für die Desinfektion, Reinigung und Sterilisation der Instrumente beachten Sie bitte die Hinweise in der aktuellen Broschüre „Instrumenten-Aufbereitung richtig gemacht“. (www.a-k-i.org)

Indications importantes

- SCHWERT est une marque déposée internationale de A. Schweickhardt GmbH & Co. KG. Les instruments EPEE correspondent au standard DIN EN ISO 13485.
- Ce catalogue s'adresse seulement au personnel qualifié. Le catalogue reste notre propriété. Son emploi est limité à l'achat et la vente d'instruments EPEE. Le copyright, aussi de la création et réalisation du catalogue et des illustrations et éléments créatifs, est réservé à nous. Il est défendu de le reproduire ou copier, même en abrégé et instruments individuels sans permission écrite précédente de A. Schweickhardt GmbH & Co. KG. Toute violation sera poursuivie devant les tribunaux. Des modifications d'instruments peuvent être faites sans avis.
- Comme méthode de stérilisation fiable, nous recommandons seulement autoclave. Toute autre méthode est appliquée à la seule responsabilité du docteur. En cas de stérilisation à l'air chaud la température ne doit pas passer 180°C, parce que une température plus haute peut provoquer un changement de couleur et même une réduction de dureté de l'instrument.
- Pour la désinfection, nettoyage et stérilisation des instruments, veuillez considérer les indications dans la brochure actuelle « Le traitement correct des instruments de chirurgie. » (www.a-k-i.org)

Important notice

- SCHWERT is an internationally registered trade mark of A. Schweickhardt GmbH & Co. KG. SCHWERT-instruments comply with the DIN EN ISO 13485 standard.
- This catalogue is only addressed to trained specialists. It remains our property. Its use is limited to buying and selling SCHWERT instruments. Copyright is reserved to us, reprints and duplications, also of parts and especially of single instruments are strictly forbidden without previous written authorization of A. Schweickhardt GmbH & Co. KG. Design and layout of the catalogue, illustrations and design elements are also subject to our copyright. Violations will be prosecuted. Instruments may be subject to design changes without notice.
- As safe sterilisation method we recommend only autoclaving, every other method is applied exclusively at the doctor's responsibility. If hot air sterilisation is used, make sure that temperature does not exceed 180°C, because a higher temperature can lead to non-removable discolorations and a loss in hardness of the instruments.
- For disinfection, cleaning and sterilization of the instruments please pay attention to the references in the current brochure "Proper maintenance of instruments". (www.a-k-i.org)

Avisos importantes

- SCHWERT es una marca registrada y protegida internacionalmente de A. Schweickhardt GmbH & Co. KG. Los instrumentos ESPADA son conformes a la Norma DIN EN ISO 13485.
- Este catálogo se dirige únicamente a personal profesional especializado. El catálogo es de nuestra propiedad. Su uso está limitado a la compra y venta de instrumentos ESPADA. Su reproducción total o parcial, en particular instrumentos individuales, está prohibida sin el previo permiso escrito de A. Schweickhardt GmbH & Co. Todos los derechos de autor tanto para la creación y presentación como para las ilustraciones y elementos creativos son de nuestra propiedad. Cualquier violación de estos derechos será perseguida judicialmente. Los instrumentos pueden sufrir posibles modificaciones técnicas sin previo aviso.
- Como método seguro de esterilización únicamente recomendamos el autoclave, cualquier otro método aplicado será bajo la responsabilidad del doctor. En caso de esterilización con aire caliente, la temperatura no debe exceder de 180°, porque una temperatura más alta puede provocar decoloraciones y una reducción de la dureza del instrumento.
- Para la desinfección, limpieza y esterilización de los instrumentos por favor preste atención al apartado "El método correcto para el tratamiento de instrumentos." en el folleto actual. (www.a-k-i.org)
